

SAT®/PSAT® ACADEMIC PROGRAM

COVERS ALL SECTIONS OF THE SAT/PSAT!

ALSO, GOOD READING, GRAMMAR, AND MATH PREPARATION FOR THE ACT!

This summer's SAT/PSAT ACADEMIC PROGRAM offers a comprehensive review of Mathematics, Reading, Words in Context, and Grammar; practice on real SAT tests; PLUS, Dr. Pace's unique and highly effective strategies.

IMPORTANT NOTE: Even though the SAT is scheduled to change in one year, students who attend schools that administer the PSAT to freshmen and sophomores will be taking the CURRENT PSAT. Therefore, I **highly recommend that 9th and 10th graders take my current PSAT/SAT seminar to help secure the highest score possible on the current version of the PSAT, which is the version colleges will be more familiar with.** Note: Students who will be Juniors and Seniors in the fall of 2022 will be taking the current PSAT and SAT, not the new PSAT and SAT.

DATES: AUGUST 15 - 19 (M-F)

TIMES: 10:15 a.m. to 12:45 p.m.

The Boyles are among the most cherished families with whom I have had the honor to work. I cannot say enough good about Mrs. Kim Boyle, a kind and loving woman who is devoted to her four sons and who does everything in her power to support them and their considerable talents.

Congratulations to Gavin and Ryan for all of your outstanding accomplishments! Be excited for and enjoy the next phase of your journey!

Dr. Pace

RYAN BOYLE, Our Lady of Good Counsel, Southampton

Ryan was accepted with scholarships to Archbishop Wood, LaSalle College High School and Holy Ghost Prep. He also qualified to sit for the Neumann scholarship. He will be attending Holy Ghost Prep with his brother in the fall. He is so thankful for everything you did to teach him test taking strategies and felt very prepared for his HSPT. We really can't thank you enough for helping build his skills and confidence!

MY FORMER STUDENTS INSPIRE!

CHAD SOUTHERLAND

This May, Chad earned a Master of Urban Planning (MUP) in Urban and Regional Planning from Texas A&M's College of Architecture. I have no doubt Chad will use his degree to help solve some of our most daunting environmental problems. I had the good fortune of witnessing this very talented young man develop the skills he would need as he discerned his path forward. Employment is his next step toward a fulfilling and purposeful life of doing good. My heartfelt gratitude to the Southerlands for raising this inspiring gentleman!

Dr. Pace

Earned a Master of Urban Planning (MUP) in Urban and Regional Planning from Texas A&M's College of Architecture.

Dear Dr. Pace,

I want to thank you for your letter and unwavering encouragement to develop academically and personally. You have challenged me to apply myself in ways no one else has. I have always felt safe with you and your support fills me with joy.

As for my future plan, I have yet to narrow down my optimal career path but am very optimistic about my options. My most ideal job would be applying the geospatial software skills that I have to the renewable energies industry. Specifically, using the software to assess environmental conditions, hazard risks, and buildable areas to aid in the strategic growth of the solar/wind industry in the US. I am also looking at planning positions at the regional level focused on environmental/hazard and

land use planning. I have had quite a few interviews already and am taking my time to find a job I think I'll really enjoy. The job hunt will ramp up once I am done traveling this summer if I haven't found something by then.

I will keep you updated on that as the plans become more definitive.

All the best,

Chad Southerland

SHAYLYN KAMINSKI

I am very grateful to Shaylyn Kaminski for being such an outstanding student and for the years she worked as my assistant. In both roles Shaylyn inspired—by putting in the necessary study time to significantly increase her SAT scores and by faithfully serving my students and their families for several years as she worked her way through college. With the encouragement of her supportive family, Shaylyn will be using her talents to help make this world a better place.

Thank you, Shaylyn!

Dr. Pace

The following is part of an interview I recently had with Shaylyn:

Degree you are going for: Occupational Therapy Doctoral degree

How many years is the program: 3 years

Grad school you will start in June: Widener University

The college you attended and the degree you earned:

- Undergrad - Temple University: BS in Recreational therapy with a minor in clinical psychology

The work you hope to do: In the beginning of my career, I hope either to help children with disabilities integrate in society or to work with trauma patients (e.g. victims of car accidents, amputees, veterans, general rehab) who need help with the activities of daily living. Also, I would love to work/volunteer with organizations that help poor/unfortunate communities all over the world.
